Friday, July 23, 2010

Dear Eastern Avenue Residents,

The Flagg Creek Water Reclamation District (FCWRD) is currently in the process of constructing a major sanitary relief sewer that runs through sections of Hinsdale, Westmont and our Village. FCWRD owns and operates the sanitary sewer system throughout the Village and the over 14 million dollars of improvements are well warranted to relive sanitary sewer surcharging during heavy rainfall.

The construction methods being used to install the sewer are a combination of tunneling and open trenching. On Tuesday July 27<sup>th</sup>, work will begin on Eastern Avenue between S. Prospect and Harris Avenue to install the 36 inch diameter reinforced concrete pipe approximately 20 feet below grade. This section of pipe will be tunneled and two receiving/sending shafts with dimensions of approximately 25' x 16' wide and 20' deep will be necessary to accomplish this task. Construction hours for this section of sewer will be between 7:00 AM to 5:00 PM Monday through Friday with an occasional Saturday if necessary.

During construction Eastern Avenue between S. Prospect and Harris Avenue will be posted "local traffic only" to provide for the safety of the residents, workers and delivery of materials. Although you may experience slight delays you will have access to your residence throughout the project.

#### **\*Estimated Construction Schedule**

**Monday July 26<sup>th</sup>:** Delivery of traffic control devices.

**Tuesday July 27<sup>th</sup>:** Begin excavating tunneling receiving/sending shafts.

**Friday August 20<sup>th</sup>:** Construction on this section complete.

**Note: During this period unattended on-street parking will be prohibited.**

#### **If you have any questions please contact;**

Flagg Creek Water Reclamation District (630) 323-3299

Public Works (630) 286-4750.

Or in an emergency - Dial 911

**Construction updates will be available on the Village's website at [www.clarendonhills.us](http://www.clarendonhills.us)**

Thank you in advance for your cooperation during this important project.

John W. Hays  
Director of Public Works
