- **Train Station Close Out**- We met with John Burns regarding a final train station construction closeout. Preliminarily, it looks like the project will come in under the approved amount significantly, which is positive given the inflationary environment at the time of construction and a couple of change orders including environmental remediation.
- **Long Beach Indiana Fire Station**- Director Dalen, Acting Chief Godek, and DC Krupp toured a recently built fire station in Long Beach Indiana designed and built by the Holladay Group. We were impressed by the speed in which the project was completed.
