RE: Department Report

1. **Christian Church of Clarendon Hills.** On Monday, I met with Sr. Pastor Stevens to review the Churches ongoing parking lot and stormwater management systems expansion. Topics included safe pedestrian access to the property, services to the recently annexed parsonage (123 57th St.), and plans for possible facility expansion in the future. Pastor Stevens and I also talked about the Churches upcoming Father's Day Weekend Car show and the potential opportunity to coordinate this event with the Chamber's Daisy Day activities. I recommended the Chamber contact Pastor Steven directly.
2. **Commercial and Retail Opportunities in Downtown.** On Tuesday, I met with several parties interested in locating their businesses in Downtown Clarendon Hills. I recommended they take a look at the retail space behind Quinn's Coffee (former dog grooming space), the former banks spaces at 4 Walker Avenue, and the soon to be vacated Fifth Third Bank building. I will provide more information about these discussions when appropriate.
3. **NIMS Certification.** On Wednesday and Thursday I attended a course and received ICS 400 certification, a component of the National Incident Management System (NIMS) training Program. NIMS is a systematic, proactive approach to guide departments and agencies at all levels of government, nongovernmental organizations, and the private sector to work together seamlessly and manage incidents involving all threats and hazards—regardless of cause, size, location, or complexity—in order to reduce loss of life, property and harm to the environment. To date, I have earned the following required NIMS certifications: ICS-100 (Introduction to Incident Command System); ICS-200 (Single Resources and Initial Action Incident); ICS 300 (Intermediate ICS for Expanding Incidents; ICS 400 (Advanced ICS); and ICS-700 (NIMS Introduction). The certifications have been known to be a prerequisite in support of the community's eligibility for federal grants and emergency funds.
4. **Permit Report.** So far this month the Village has issued fourteen (14) building permits, including four (4) new homes, having a total reported construction value of \$2,202,089.
